Coronavirus Updates for PPATKS
03/19/20

All 441 members and PPATKS Students:

As new information becomes available we will do our best to keep our students informed. I have been in contact with the State Department of Labor and the State Department of Apprenticeship Training. They have indicated that hours missed at school WILL need to be made up. Fortunately they did not mandate to us how this needed to be accomplished. It is possible that we may be able to do some of this work online.

I will be attending several online meetings with the UA and the Department of apprenticeship training to work though how we will accomplish this.

I am aware that this will extend schooling through the summer time and this will definitely become a hardship on some of the students. We will not be able to give up these hours, we are demanded to complete them per the State and Federal rules.

Please make sure that we have your most up to date information on phone and email so that we can continue to communicate with you.

I pray that each one of you and your families are able to remain healthy and safe during this crisis.
